

## Indian Gas Exchange

Indian Gas Exchange Limited (IGX) is India's first authorised

# automated platform for delivery of natural gas

The Exchange aims to:

- Promote and sustain an efficient and robust gas market ecosystem
- Create a neutral and transparent market place operating under the Petroleum and Natural Gas Regulatory Board
- Feature multiple buyers and sellers for trading of natural gas in spot and forward contracts at designated physical delivery points

### Vision

To lead India's transition towards a gas-based economy by architecting next-generation solutions for natural gas trading and access.

### Mission

To leverage technology and innovation, to establish a nationwide, transparent & competitive marketplace for trading of gas and petroleum products.

# building a gas-based economy
